WASHINGTON, April 13, 2022— The Biden Administration recently appointed Julia Wickard as the new State Executive Director (SED) for the USDA Indiana Farm Service Agency (FSA). Wickard joined the Indiana FSA team on April 11, 2022.

“Individuals selected to serve as FSA State Executive Directors are incredible public servants who have a proven track record when it comes to their commitment to advance their states and communities,” said Agriculture Secretary Tom Vilsack. “Each will serve on the frontlines, carrying out USDA’s mission at the state level and ensuring the voice of each and every USDA customer is heard. We are fortunate to have each of these talented individuals at this critical time for farmers and producers and rural communities across America.”

Wickard, her husband, and two children own and operate Wickard Livestock where they raise registered Angus cattle and Boer goats. Wickard embarked on a journey with the State of Indiana at the Indiana Department of Environmental Management (IDEM) in April of 2017 as the Government Affairs Director and Agricultural Liaison. Just a few short months following her arrival at IDEM, she was appointed as Assistant Commissioner in the Office of Program Support, while also maintaining her Agricultural Liaison role. Prior to IDEM, she served for eight years as the Indiana FSA SED. She served as the Executive Vice President of the Indiana Beef Cattle Association, Chief Operating and Marketing Officer and Environmental and Natural Resources Director at the Indiana Farm Bureau Inc. and was the Environmental and Natural Resources Director in the Office of the Commissioner of Agriculture. She has worked for the Indiana Association of Soil and Water Conservation Districts, Inc. and served two members of Congress.

Wickard is a graduate of AgrIIstitute’s Indiana Agricultural Leadership Program and currently chairs the board of directors. She is a recipient of Indiana’s highest honor from the Governor of the State, the Sagamore of the Wabash, and in 2019 was recognized as a Purdue University Agricultural Sciences Education and Communication Distinguished Alumni. Wickard is active in her community and enjoys

spending time with family and exhibiting cattle and goats in the state and across the country.

As SED, Wickard will be responsible for overseeing the delivery of FSA programs to agricultural producers in Indiana. These commodity, conservation, credit, and disaster assistance programs ensure a safe, affordable, abundant, and nutritious food, fiber, and fuel supply for consumers.

“The State Executive Director is a pivotal leadership position for the Agency and for the agricultural producers we serve,” said Marcus Graham, FSA Deputy Administrator for Field Operations. “These leaders, appointed by the Biden-Harris Administration, bring a wealth of knowledge and expertise to their respective states. We are happy to have them on board and wish them much success.”

Farm Service Agency serves farmers, ranchers, foresters, and agricultural partners through the effective, efficient, and equitable delivery of federal agricultural programs. The Agency offers producers a strong safety net through the administration of farm commodity and disaster programs. Additionally, through conservation programs, FSA continues to preserve and protect natural resources and provides credit to agricultural producers who are unable to receive private, commercial credit, including targeted loan funds for beginning, underserved, women and military veterans involved in production agriculture.

USDA touches the lives of all Americans each day in so many positive ways. In the Biden-Harris Administration, USDA is transforming America’s food system with a greater focus on more resilient local and regional food production, fairer markets for all producers, ensuring access to safe, healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate smart food and forestry practices, making historic investments in infrastructure and clean energy capabilities in rural America, and committing to equity across the Department by removing systemic barriers and building a workforce more representative of America.
