- [USDA Increases Minimum Annual Payment for Conservation Stewardship Program](#)

Message from the FSA State Director

Greetings from the South Dakota State FSA Office!

I want to share with you the recent improvements to the application process for the FSA Farm Loans. These changes to the process from the FSA Farm Loan team will streamline the

process to the more than the 26,000 applications FSA receives every year for its direct farm loans.

The first improvement is a [simplified direct loan paper application](#), which reduced the application from 29 pages to 13 pages. Anyone who has filled out any kind of application knows that the longer the form the less likely you are to get it completed. We estimate that FSA will see a 50% increase in customer responses in completing the process.

Most recently, USDA launched an [online application for Direct Loan customers](#). This is an online, interactive, guided application that is paperless and provides helpful features including an electronic signature option, the ability to attach supporting documents such as tax returns, complete a balance sheet and build a farm operating plan.

Are you ready to apply for a farm loan? Use the [Loan Assistance Tool](#) to complete the Eligibility Self-Assessment and start your farm loan journey.

For those folks who plan on attending the Dakota Farm Show January 3 – 5 at the Dakota Dome on the University of South Dakota campus, please stop by to say hi to myself and FSA staff. We will be in booth 512.

A reminder to everyone: USDA Service Centers will be closed on Christmas Day and New Years Day.

I wish you and your family a Merry Christmas and a Happy New Year. Please be safe if you and your family are traveling this holiday season.

Sincerely,

Steve Dick
State Executive Director
USDA-Farm Service Agency

Message from the NRCS State Conservationist

As I stated last month, this is a good time of year to assess conservation needs and plan for improvements. The South Dakota Soil Health Coalition's '[Wintertime is decision time](#)' release emphasizes grazing land decisions this time of year. I encourage you to evaluate your land decision and then visit with your local NRCS staff for assistance. The Inflation Reduction Act (IRA) is providing significant funding for your conservation needs. Take this time to also participate in learning opportunities such as the upcoming [South Dakota No-Till Association hosted events](#) beginning in January. Our [NRCS YouTube](#) channel has over 500 short videos focused on South Dakota people and South Dakota conservation great for winter viewing.

In nearly two years of my serving as State Conservationist of the USDA's Natural Resources Conservation Service (NRCS), I have enjoyed getting to know South Dakota and the people of this great state. I have seen passion for conservation, and it is the locally led efforts and partners that make the difference. I ask you all to consider the 2023 accomplishments we have shared and look forward to additional 2024 efforts.

Thank you to all SD farmers, ranchers, land managers, landowners, and conservation partners who are moving the needle of conservation in our state.

Sincerely,

Tony Sunseri
State Conservationist
USDA-Natural Resources Conservation Service

Important Dates & Deadlines

December 25, 2023 - All USDA Offices closed for Christmas Day Holiday

December 31, 2023 - Deadline for Inflation Reduction Act Assistance for Distressed Borrowers

January 1, 2024 - All USDA Offices closed for New Year's Day Holiday

January 13, 2024 - Application deadline for Discrimination Financial Assistance Program

January 15, 2024 - All USDA Offices closed for Martin Luther King, Jr. Holiday

January 17, 2024 - USDA RMA Workshop - "Livestock Roadshow" - Fort Pierre, SD

January 30, 2024 - Deadline to submit a notice of loss and application for ELAP-eligible losses in 2023

January 30, 2024 - Deadline to submit an application for Livestock Forage Program

January 31, 2024 - Deadline to apply for assistance from the Food Safety Certification for Specialty Crops program.

February 29, 2024 - Deadline for LIP payment application and notice of loss for 2023 program year

Reminder: Discrimination Financial Assistance Program - Apply by Jan. 13, 2024

USDA continues to accept applications for assistance through the Discrimination Financial Assistance Program for South Dakota farmers, ranchers, and forest landowners who experienced discrimination in USDA farm lending programs prior to January 2021. The application process will close on January 13, 2024. Borrowers have the option to apply for assistance online via 22007apply.gov or through a paper-based form.

Details about the program, including an application and e-filing portal, are available at 22007apply.gov. The website includes an English and Spanish language application that applicants can download or submit via an e-filing portal, information on how to obtain technical assistance in-person or virtually, and additional resources and details about the program.

Applicants can also call a free call center at 1-800-721-0970 or visit one of several dozen brick-and-mortar offices the program has set up around the country. Locations are provided on the program website and vendors will update the local events schedule with more information as it becomes available.

Several entities are involved in the Discrimination Financial Assistance Program, with varying roles and responsibilities. The National Administrator and Regional Hubs are responsible for conducting outreach, assisting with the financial assistance application process, processing applications, managing program call centers, and operating local offices. Additional outreach and application support is provided by trusted community groups. These groups include [AgrAbility](#), the [Farmer Veteran Coalition](#), [Farmers' Legal Action Group](#), [Federation of Southern Cooperatives](#), [Intertribal Agriculture Council](#), [Land Loss Prevention Program](#), [National Young Farmers Coalition](#), and [Rural Coalition](#).

It is important to note that filing an application is FREE and does not require a lawyer.

If you want to get weekly updates on the program's events and progress, you can go to <https://22007apply.gov>, and subscribe to a weekly newsletter.

USDA to Host In-Person Workshop in South Dakota to Focus on Federal Livestock Insurance Products

The U.S. Department of Agriculture (USDA) is hosting a series of in-person and virtual workshops for producers to learn about new and expanded livestock risk management products. The "Livestock Roadshow," hosted by USDA's Risk Management Agency (RMA), will highlight policy improvements based on feedback from America's livestock producers, as part of the agency's broader outreach and education efforts. **This event will be held in-person on January 17, 2024, from 10 a.m. to 12 p.m. CT at the Drifters Bar & Grille Event Center located at 325 E. Hustan Avenue, Fort Pierre, SD 57532.**

At this event, producers can expect to learn more about the following Federal Livestock Insurance products:

- **Weaned Calf Risk Protection (new for 2024)**, available in Colorado, Nebraska, **South Dakota**, and Texas
- Livestock Risk Protection, available nationwide
- Livestock Gross Margin, available nationwide
- Dairy Revenue Protection, available nationwide
- Pasture, Rangeland, and Forage, available nationwide
- Annual Forage, available in Colorado, Kansas, Nebraska, New Mexico, North Dakota, Oklahoma, **South Dakota**, and Texas

In addition to this event on January 17th in Fort Pierre, throughout the coming months there will be more than a dozen Livestock Roadshow workshops held in-person in each of [RMA's 10 regions](#), as well as several virtual workshops that will be available to everyone across the

country. A full listing of upcoming Livestock Roadshow events and information on how to participate is available on RMA's [Livestock Roadshow webpage](#).

For more information, contact the USDA-RMA Billings Regional Office at (406) 657-6447 or email: rsomt@usda.gov

USDA Makes Producer-Friendly Change to 2023 Notice of Loss Requirements for Two Livestock Disaster Assistance Programs

The U.S. Department of Agriculture (USDA) has waived certain notice of loss requirements for 2023 for the [Emergency Assistance for Livestock, Honeybees, and Farm-raised Fish](#) (ELAP) and [Livestock Indemnity Program](#) (LIP). In an effort to streamline assistance to support access to critical 2023 natural disaster recovery assistance, USDA's Farm Service Agency (FSA) is waiving the requirement to submit ELAP or LIP notices of loss within a pre-determined number of days for 2023. Instead, producers have the flexibility to submit 2023 notices of loss as soon as possible, once losses are realized, following a natural disaster event or no later than the established annual program application for payment deadlines for each program. FSA county committees are also being asked to re-evaluate 2023 ELAP and LIP late-filed notices of loss to determine if the waiver applies.

Emergency Assistance for Livestock, Honeybees, and Farm-raised Fish

ELAP provides recovery assistance to eligible producers of livestock, honeybee, and farm-raised fish losses due to an eligible adverse weather or loss condition, including blizzards, disease, water shortages and wildfires. ELAP covers grazing and feed losses, transportation of water and feed to livestock and hauling livestock to grazing acres. ELAP also covers certain mortality losses for livestock including honeybees and farm-raised fish as well as honeybee hive losses. ELAP is designed to address losses not covered by other FSA disaster assistance programs.

For 2023, FSA is waiving the regulatory requirement for producers who are eligible for ELAP to file a notice of loss with FSA within 30 calendar days from when the loss first became apparent for livestock and farm-raised fish and 15 calendar days for honeybees. Under this waiver, notices of loss are to be completed by the eligible producer and submitted to FSA no later than the annual program application deadline of January 30 following the program year in which the loss occurred. Therefore, producers who incurred ELAP-eligible losses in 2023, will need to submit a notice of loss by Jan. 30, 2024.

Livestock Indemnity Program

LIP provides disaster recovery assistance to livestock owners and contract growers who experience livestock deaths, in excess of normal mortality caused by eligible loss conditions including adverse weather, disease and attacks by animals reintroduced into the wild by the federal government or protected by federal law, including wolves and avian predators. LIP also helps livestock owners who must sell livestock at a reduced price because of an injury from certain loss conditions.

For 2023, FSA is waiving the regulatory requirement for producers who are eligible for LIP to file a notice of loss within 30 calendar days from when the loss first became apparent. Under this waiver, producers are still required to complete and submit the notice of loss to FSA no later than the annual program payment application date, which is 60 calendar days following the program year in which the loss occurred. The LIP payment application and notice of loss deadline is Feb. 29, 2024, for the 2023 program year.

2023 Disapproved Applications

FSA county committees will review all notices of loss for both ELAP and LIP that were previously disapproved for the 2023 program year due to late filing and re-evaluate them to determine if the waiver applies. To receive ELAP and LIP benefits, producers will still need to file an application for payment by the established program deadline for the 2023 program year. Producers who are unsure about the status of their notice of loss or application for payment, should contact their local FSA county office as soon as possible.

Supporting Documentation

Accurate records and loss documentation are critical following disaster events and are required when filing notices of loss with FSA. Acceptable loss documentation includes:

- Documentation of the number, kind, type, and weight range of livestock that have died, supplemented, if possible, by photographs or video records of ownership and losses.
- Rendering truck receipts by kind, type, and weight - important to document prior to disposal.
- Beginning inventory supported by birth recordings or purchase receipts.
- Documentation from Animal Plant Health Inspection Service, Department of Natural Resources, or other sources to substantiate eligible death losses due to an eligible loss condition.
- Documentation that livestock were removed from grazing pastures due to an eligible adverse weather or loss condition.
- Costs of transporting livestock feed to eligible livestock, such as receipts for equipment rental fees for hay lifts and snow removal.
- Feed purchase receipts if feed supplies or grazing pastures are destroyed.
- Number of gallons of water transported to livestock due to water shortages.

More Information

The improvements to ELAP and LIP build on others made since 2021. This includes ELAP benefits for above normal costs for hauling feed and water to livestock and transporting livestock to other grazing acres during a qualifying drought. FSA also [expanded eligible livestock](#) under ELAP, LIP, and the Livestock Forage Disaster Assistance Program, and increased the LIP payment rate for beef, beefalo, bison, and dairy animals less than 250 pounds and most recently beef calves over 800 pounds. Learn about USDA disaster assistance programs on [farmers.gov](https://www.farmers.gov).

On farmers.gov, the [Disaster Assistance Discovery Tool](#), [Disaster-at-a-Glance fact sheet](#) and [Loan Assistance Tool](#) can help producers and landowners determine [disaster protection and recovery](#) program or loan options. For more information about FSA programs, contact your local [USDA Service Center](#).

USDA to Provide More Than \$3 Billion to Commodity and Specialty Crop Producers Impacted by 2022 Natural Disasters

The U. S Department of Agriculture (USDA) will provide more than \$3 billion to commodity and specialty crop producers impacted by natural disaster events in 2022. Eligible impacted producers can apply for financial assistance through the [Emergency Relief Program \(ERP\) 2022](#). The program will help offset the financial impacts of crop yield and value losses from qualifying disasters occurring in 2022.

Background

On Dec. 29, 2022, President Biden signed into law the *Disaster Relief Supplemental Appropriations Act, 2023 (P.L. 117-328)* that provides about \$3.7 billion in financial assistance for agricultural producers impacted by eligible natural disasters that occurred in calendar year 2022.

ERP 2022 covers losses to crops, trees, bushes and vines due to qualifying, calendar year 2022 natural disaster events including wildfires, hurricanes, floods, derechos, excessive heat, tornadoes, winter storms, freeze (including a polar vortex), smoke exposure, excessive moisture, qualifying drought and related conditions.

ERP 2022 program benefits will be delivered to eligible producers through a two-track process. FSA intends to make both tracks available to producers at the same time. This two-track approach enables USDA to:

- Streamline the application process.
- Reduce the paperwork burden on producers.
- Proactively include provisions for underserved producers who have not been well served by past emergency relief efforts.
- Encourage producer participation in existing risk management programs to mitigate the impacts of future severe weather events.

It's important to note that disaster-impacted producers may be eligible for ERP 2022 assistance under one or both tracks. To avoid duplicative benefits, if a producer applies for both tracks, the Track 2 payment calculation will take into account any payments received through Track 1.

ERP 2022 Application Process – Track 1

ERP 2022 Track 1 leverages existing federal crop insurance or Noninsured Crop Disaster Assistance Program (NAP) data as the basis for calculating payments for eligible crop producers who received indemnities through these risk management programs.

Although FSA is sending pre-filled ERP 2022 Track 1 application forms to producers who have crop insurance and NAP data already on file with USDA, producers indemnified for losses resulting from 2022 natural disasters do not have to wait to receive the application before requesting ERP 2022 assistance. Effective Oct. 31, 2023, producers can apply for ERP 2022 benefits whether they have received the pre-filled application or not. Receipt of a pre-filled application is not confirmation that a producer is eligible to receive an ERP 2022 Track 1 payment.

USDA estimates that ERP Track 1 benefits will reach more than 206,000 producers who received indemnities for losses covered by federal crop insurance and more than 4,500 producers who obtained NAP coverage for the 2022 crop year.

ERP 2022 Application Process – Track 2

Track 2 is a revenue-based certification program designed to assist eligible producers who suffered an eligible decrease in revenue resulting from 2022 calendar year disaster events when compared with revenue in a benchmark year using revenue information that is readily available from most tax records. In cases where revenue does not reasonably reflect a normal year's revenue, Track 2 provides an alternative method for establishing revenue. Likewise, Track 2 affords producers of crops that are used within an operation and do not generate revenue from the sale of the crop a method for establishing revenue for the purpose of applying for ERP 2022 benefits. Producers are not required to submit tax records to FSA unless requested by the County Committee if required for an FSA compliance spot check.

Although not required when applying for ERP 2022 Track 2, applicants might find the following documents useful to the process:

- Schedule F (Form 1040)
- *Profit or Loss from Farming* or similar tax documents for tax years 2018, 2019, 2022 and 2023.

Track 2 targets gaps in emergency relief assistance for eligible producers whose eligible losses were not covered by crop insurance or NAP including revenue losses too small (shallow loss) to be covered by crop insurance.

Producers interested in applying for ERP 2022 Track 2, should contact their local FSA county office. Additional reference resources can be found on FSA's [emergency relief website](#).

Additional Required Forms

For both ERP 2022 tracks, all producers must have certain required forms on file with FSA within 60 days of the ERP 2022 deadline. Producers can apply for ERP 2022 starting Oct. 31, 2023. The application deadline has not yet been determined and will be announced at a later date. If not already on file, producers can update, complete and submit required forms to FSA at any time.

Required forms:

- Form AD-2047, *Customer Data Worksheet*.
- Form CCC-902, *Farm Operating Plan* for an individual or legal entity.
- Form CCC-901, *Member Information for Legal Entities* (if applicable).
- Form FSA-510, *Request for an Exception to the \$125,000 Payment Limitation for Certain Programs* (if applicable).
- Form CCC-860, *Socially Disadvantaged, Limited Resource, Beginning and Veteran Farmer or Rancher Certification*, if applicable, for the 2022 program year.
- A highly erodible land conservation (sometimes referred to as HELC) and wetland conservation certification (Form AD-1026 *Highly Erodible Land Conservation (HELIC) and Wetland Conservation (WC) Certification*) for the ERP producer and applicable affiliates.

Most producers, especially those who have previously participated in FSA programs, will likely have these required forms on file. However, those who are uncertain or want to confirm the status of their forms can contact their local FSA county office.

Future Insurance Coverage Requirements

All producers who receive ERP 2022 payments must purchase crop insurance, or NAP coverage where crop insurance is not available, in the next two available crop years as determined by the Secretary. Purchased coverage must be at the 60/100 coverage level or higher for insured crops or at the catastrophic coverage level or higher for NAP crops.

More Information

ERP 2022 eligibility details and payment calculation factor tables are available on the [emergency relief website](#), in the [ERP Track 1](#) and [ERP Track 2](#) fact sheets and through your local [FSA county office](#).

FSA Outlines MAL and LDP Policy

Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs) provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide you with interim financing after harvest to help you meet cash flow needs without having to sell your commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2023 MALs and LDPs for all eligible commodities after harvest. Requests for loans and LDPs shall be made on or before the final availability date for the respective commodities.

Commodity certificates are available to loan holders who have outstanding nonrecourse loans for wheat, upland cotton, rice, feed grains, pulse crops (dry peas, lentils, large and small chickpeas), peanuts, wool, soybeans and designated minor oilseeds. These certificates can be purchased at the posted county price (or adjusted world price or national posted price) for

the quantity of commodity under loan, and must be immediately exchanged for the collateral, satisfying the loan. MALs redeemed with commodity certificates are not subject to Adjusted Gross Income provisions.

To be considered eligible for an LDP, you must have form [CCC-633EZ, Page 1](#) on file at your local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

Marketing loan gains (MLGs) and loan deficiency payments (LDPs) are no longer subject to payment limitations, actively engaged in farming and cash-rent tenant rules.

Adjusted Gross Income (AGI) provisions state that if your total applicable three-year average AGI exceeds \$900,000, then you're not eligible to receive an MLG or LDP. You must have a valid CCC-941 on file to earn a market gain of LDP. The AGI does not apply to MALs redeemed with commodity certificate exchange.

For more information and additional eligibility requirements, contact your local County USDA Service Center or visit fsa.usda.gov.

Report Banking Changes to FSA

Farm Service Agency (FSA) program payments are issued electronically into your bank account. In order to receive timely payments, you need to notify your FSA servicing office if you close your account or if your bank information is changed for any reason (such as your financial institution merging or being purchased). Payments can be delayed if FSA is not notified of changes to account and bank routing numbers.

For some programs, payments are not made until the following year. For example, payments for crop year 2019 through the Agriculture Risk Coverage and Price Loss Coverage program aren't paid until 2020. If the bank account was closed due to the death of an individual or dissolution of an entity or partnership before the payment was issued, please notify your local FSA office as soon as possible to claim your payment.

Foreign Buyers Notification

The Agricultural Foreign Investment Disclosure Act (AFIDA) requires all foreign owners of U.S. agricultural land to report their holdings to the Secretary of Agriculture. Foreign persons who have purchased or sold agricultural land in the county are required to report the transaction to FSA within 90 days of the closing. Failure to submit the [AFIDA form](#) could result in civil penalties of up to 25 percent of the fair market value of the property. County government offices, realtors, attorneys and others involved in real estate transactions are reminded to notify foreign investors of these reporting requirements. The data gained from these disclosures is used in the preparation of periodic reports to the President and Congress concerning the effect of such holdings upon family farms and rural communities. Click [here](#) for more information on AFIDA.

Farmers can use USDA farm ownership microloans to buy and improve property. These microloans are especially helpful to beginning or underserved farmers, U.S. veterans looking for a career in farming, and those who have small and mid-sized farming operations.

Microloans have helped farmers and ranchers with operating costs, such as feed, fertilizer, tools, fencing, equipment, and living expenses since 2013.

Microloans can also help with farmland and building purchases and soil and water conservation improvements. FSA designed the expanded program to simplify the application process, expand eligibility requirements and expedite smaller real estate loans to help farmers strengthen their operations. Microloans provide up to \$50,000 to qualified producers and can be issued to the applicant directly from the USDA Farm Service Agency (FSA).

To learn more about the FSA microloan program, contact your local USDA Service Center or visit fsa.usda.gov/microloans.

Reminders for FSA Direct and Guaranteed Borrowers with Real Estate Security

Farm loan borrowers who have pledged real estate as security for their Farm Service Agency (FSA) direct or guaranteed loans are responsible for maintaining loan collateral. Borrowers must obtain prior consent or approval from FSA or the guaranteed lender for any transaction that affects real estate security. These transactions include, but are not limited to:

- Leases of any kind
- Easements of any kind
- Subordinations
- Partial releases
- Sales

Failure to meet or follow the requirements in the loan agreement, promissory note, and other security instruments could lead to nonmonetary default which could jeopardize your current and future loans.

It is critical that borrowers keep an open line of communication with their FSA loan staff or guaranteed lender when it comes to changes in their operation. For more information on borrower responsibilities, read [Your FSA Farm Loan Compass](#).

Submit Loan Requests for Financing Early

The Farm Loan team in your County is already working on operating loans for spring 2024 and asks potential borrowers to submit their requests early so they can be timely processed. The farm loan team can help determine which loan programs are best for applicants.

FSA offers a wide range of low-interest loans that can meet the financial needs of any farm operation for just about any purpose. The traditional **farm operating and farm ownership loans** can help large and small farm operations take advantage of early purchasing discounts for spring inputs as well expenses throughout the year.

Microloans are a simplified loan program that will provide up to \$50,000 for both Farm Ownership and Operating Microloans to eligible applicants. These loans, targeted for smaller

and non-traditional operations, can be used for operating expenses, starting a new operation, purchasing equipment, and other needs associated with a farming operation. Loans to beginning farmers and members of underserved groups are a priority.

Other types of loans available include:

Marketing Assistance Loans allow producers to use eligible commodities as loan collateral and obtain a 9-month loan while the crop is in storage. These loans provide cash flow to the producer and allow them to market the crop when prices may be more advantageous.

Farm Storage Facility Loans can be used to build permanent structures used to store eligible commodities, for storage and handling trucks, or portable or permanent handling equipment. A variety of structures are eligible under this loan, including bunker silos, grain bins, hay storage structures, and refrigerated structures for vegetables and fruit. A producer may borrow up to \$500,000 per loan.

Improving Risk Protection on Tribal Lands

More than [46 million acres of tribal land in the United States](#) are used for production agriculture, an inherently high-risk business. The U.S. Department of Agriculture (USDA) is here to help the producers who operate these tribal lands to prepare, recover, and build long-term resilience to natural disasters and climate change, through a suite of [disaster assistance programs, crop insurance and other risk management options](#), and conservation programs and practices.

A new [Tribal Partnerships](#) page on USDA's [farmers.gov](#) website is designed to connect Tribal Nation leaders, land managers, agricultural producers and citizens with USDA programs and services. Developed as part of USDA's commitment to its federal trust responsibility to Tribal Nations, the web page showcases opportunities for land access, indigenous representation, conservation partnerships, and support for tribal food sovereignty.

USDA's Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS), and Risk Management Agency (RMA) offer programs, technical assistance, and insurance products for managing risk, adopting climate-smart practices, and ensuring a safety net from weather.

Crop Insurance

Through the Federal Crop Insurance Corporation, USDA provides crop insurance to farmers and ranchers to help them manage risks on their farms and ranches. There are many types of insurance products available for a wide variety of production practices, including organic and sustainable agriculture. Crop insurance can be obtained through an [Approved Insurance Provider](#) (crop insurance agent), while other programs, including FSA's [Noninsured Crop Disaster Assistance Program \(NAP\)](#) coverage can be accessed by contacting your local [USDA Service Center](#).

Disaster Assistance Discovery Tool

Producers who recently suffered loss or damage due to a natural disaster including crop and livestock losses, farmland damage as well as damages to farm or ranch infrastructure such as hay storage facilities, fence, and equipment can use the USDA Disaster Discovery Tool to

receive personalized results outlining which programs best meet their needs. Find [disaster assistance](#) program details and learn more about USDA assistance at the [USDA Disaster Resource Center](#).

Risk Protection for Beginning, Veteran, Limited Resource and Minority Producers

In 2023, FSA made [improvements to NAP](#) to enhance risk protection coverage for beginning, veteran, limited resource, and minority producers. Learn more about [NAP coverage](#) and other disaster recovery programs at [farmers.gov/protection-recovery](#).

Crop Acreage Reporting

To be eligible for many USDA programs, including risk management programs, agricultural producers must file timely [acreage reports](#) that document the crops grown on their farm or ranch and their intended uses. Deadlines for filing crop acreage reports vary by crop and by state and county.

FSA staff at [local USDA Service Centers](#) will provide producers with maps and acreage reporting deadlines, by crop, for their county. [A crop insurance agent](#) can assist with reporting information necessary for crop insurance benefits. [Learn more about crop acreage reporting here](#).

Climate-Smart Conservation Practices

USDA is making more than [\\$3 billion in funding available for agricultural producers and forest landowners nationwide to participate in voluntary conservation programs and adopt climate-smart practices in fiscal year 2024](#) as part of President Biden's Investing in America agenda. These funds are provided by President Biden's [Inflation Reduction Act – the largest climate and conservation investment in history](#). This law invests an additional \$19.5 billion for USDA's popular conservation programs.

Farmers.gov Portal

Producers can also manage their USDA business on [farmers.gov](#). Signing up for an account provides one place to do business online with FSA and NRCS, including the ability to e-sign documents, request assistance and apply for programs. Features on this site will help expedite acreage reporting, including the ability to view, print and label maps. A farmers.gov account also offers self-service for FSA and NRCS customers to manage FSA farm loans and NRCS conservation contracts.

Customers who are new to USDA should visit [Get Started at Your USDA Service Center](#), then go to [farmers.gov/account](#) to create a farmers.gov account.

For more information about USDA support and partnerships with Tribal Nations, visit [farmers.gov/tribal](#). To learn more about FSA and NRCS programs, producers can contact their local [USDA Service Center](#). Visit [RMA online to find risk management education and training opportunities](#). Watch this USDA Office of Tribal Relations video to hear how [USDA Helps Acoma Pueblo Ranchers](#).

USDA Increases Minimum Annual Payment for Conservation Stewardship Program

The USDA is increasing the minimum annual payment for agricultural producers participating in the [Conservation Stewardship Program](#) (CSP) from \$1,500 to \$4,000 starting in fiscal year 2024. The increase addresses challenges faced by small scale, underserved, and urban producers and improves equity in the program by making participation more financially beneficial for smaller operations. The new minimum payment is available for new and renewed CSP contracts, and applications for the program in *South Dakota* are accepted on a continuous basis.

CSP offers technical and financial assistance to help agricultural and forest producers take their conservation efforts to the next level. The program is designed to compensate agricultural and forest producers who agree to increase their level of conservation by adopting additional conservation activities and maintaining their baseline level of conservation.

Examples of CSP enhancements that are suitable for being adopted by smaller scale and urban producers include:

- Planting multi-species cover crops
- Mulching with natural materials
- Establishing pollinator habitats
- Soil health crop rotation

Inflation Reduction Act and CSP

Currently, an unprecedented amount of funding is available for CSP through the Inflation Reduction Act and Farm Bill. The Inflation Reduction Act provided \$19.5 billion in additional funding for NRCS' oversubscribed programs like CSP for five years. Inflation Reduction Act funds are available to help producers adopt climate-smart practices.

How to Apply

NRCS accepts producer applications for its conservation programs year-round. Funding is provided through a competitive process and will include an opportunity to address the unmet demand from producers who have previously sought funding for climate-smart conservation activities.

For more information about assistance available, contact your local [USDA Service Center](#).
